

Question	Answer
If we know of USAF personnel who are looking for an appropriate contracting mechanism to procure our capabilities, who on the EWAAC team could we put them in contact with to learn more?	Please have your potential customers first visit the EWAAC Portal at ewaacportal.com to set up an account and review the portal and trainings. If they have any additional questions, they can send an email to the reach us at either cameron.white.8@us.af.mil (PCO) or hillary.zelinski@us.af.mil (CS).
Is there anyone on the EWAAC team based at Eglin AFB who we could usefully talk to, to better understand EWAAC and potentially explain our relevant capabilities? (Please note we should have time to visit Eglin AFB on the morning of Friday May 2nd, having been in the area for other purposes)	We will be sending out an announcement to sign up for our Lunch 'n Learn series for vendors to showcase their capabilities. This will be held virtually with EWAAC users and other EWAAC vendors so that we are able to reach the widest audience possible. If you have any additional questions, you can send an email to the reach us at either cameron.white.8@us.af.mil (PCO) or hillary.zelinski@us.af.mil (CS).
Are these industry engagement days on a specific topic, or are they open to all relevant topics?	The EWAAC Lunch & Learns will be an opportunity for you to brief EWAAC users and other EWAAC vendors on your company's capabilities. You can talk about whatever topic you choose to during your scheduled session. We have found that the most successful presentations speak primarily to the company's unique capabilities and backgrounds.
When is the next industry engagement day?	There will not be an "Industry Day" in the traditional sense. Instead, we will be sending out an announcement to sign up for our Lunch 'n Learn series for vendors to show case their capabilities. This will be held virtually so that we are able to reach the widest audience possible.
Is there an EWAAC team who keeps abreast of relevant industry capabilities that may be transacted through EWAAC / are we 'allowed' to engage with this team to explain our capabilities to see if they are a fit for the EWAAC scope? What contract types are available for use on this vehicle?	EWAAC is 100% decentralized, therefore we do not track individual capabilities. It would be best to solicit your capabilities and ideas through our Lunch 'n Learn series or directly to the program offices that your company wishes to collaborate with. Contract type is determined at the ordering level. There are no limitations to the contract type and an ordering office may issue any order based on the contract type that best fits their acquisition needs.
Is there an opportunity forecast available, or does the Contracts office publish those from time to time?	There are no official "forecast" for EWAAC related orders. Once a requirement's scope determination is approved, EWAAC vendors should receive a notice that a scope determination was approved and that it may or may not result in an official FOPR release. With EWAAC being decentralized, this is the closest that we can come to forecast.
Is use of EWAAC restricted to USAF and USSOCOM, or are other parts of the DOD/USG able to utilize the vehicle provided scope of effort aligns with EWAAC scope? I am seeing no newsletters in the Newsletter section of our portal dashboard. Will we have access to previous newsletters, or only the newsletters from after the time the EWAAC portal became open to our companies? Does every requirement need to be competed among all EWAAC awardees, or can a customer direct an award to a specific awardee?	EWAAC is open to all DoD users to utilize as long as the requirement's scope is aligned with the EWAAC scope and supplements, compliments, or supports the AF Weapons PEO mission/portfolio. Since the release of On-Ramp IV, no new newsletters have been issued. Previous newsletters will not be made available to newly on-ramped vendors as your contract was not active then. You will only have access to new newsletters as they are released. A requirement can be solicited as a sole source as long as there is an approved Fair Opportunity Exception (FOE) memo (similar to a sole source J&A) by the ordering activity's legal office.
In the SOO, Section 1. Introduction, in accordance with this sentence "Other service departments and federal agencies may be authorized to use the IDIQ if their requirement complements, supplements, or supports the Air Force Air Armament's mission. " If any potential customer wanted to bring a requirement to this contract, how would they do that?	They would need to submit a Scope Determination Memo through the EWAAC Portal for approval. After that, they will be allowed to proceed with their acquisition.
Is there an Acquisition Forecast for the EWAAC contract vehicle. If so, what frequency will it be updated? For example, Missile Defense Agency has indicated (via SAM.gov) that they plan to use this contract vehicle for their follow-on Vistas Modeling & Simulation contracts. Is there information on other pending opportunities with notional timelines?	There are no official "forecast" for EWAAC related orders. Once a requirement's scope determination is approved, EWAAC vendors should receive a notice that a scope determination was approved and that it may or may not result in an official FOPR release. With EWAAC being decentralized, this is the closest that we can come to forecast.
What is the total dollar value appropriated for the EWAAC vehicle for FY25? What is the remaining unallocated value for FY25?	There are no monies "appropriated" for EWAAC. EWAAC is a contracting vehicle that allows for delivery orders to be placed from it. All funds that are obligated using EWAAC are done at the ordering level. The ceiling of the EWAAC contract is \$46B with approx. \$42B remaining.
Does the EWAAC portal automatically generate email notifications to all award-holders on each newly posted task order opportunity (and amendments), or does the portal require active monitoring? Please indicate if there is a deadline for submitting the Post Award Conference (PAC) invoice for \$1,000.00, apart from no earlier than 22 April 2025.	The requirement owner is the one to decide if the notification about a new opportunity is sent to all vendors. If a requirement is sole source or limited source, then a notice will not be sent. Actively monitoring the portal will ensure that you do not miss any opportunities. There are no deadlines for the submission of the invoice. Typically, vendors have 30 days to submit their invoices for timely processing. Vendors who take an extremely long amount of time to invoice have historically run into issues with funds potentially expiring or cancelling depending on the fiscal year of the funds that were used.
The Task Order for the Post Award Conference requires Submittal Confirmation of EWAAC Initial Meeting Minutes. However, The Post Award Conference has been modified to include only participation in the PAC Q&A on the EWAAC Portal. When submitting the invoice for the PAC Task Order, are we still required to submit a document entitled "PAC Minutes and Questions" and if so, what are the requirements for the content of that document?	No there is not a requirement to attach a document.
When solicitations come out, are the offerers required to submit proposals through the EWAAC portal, or provide direct to the contracting officer as typically specified in the solicitation?	That will be determined by the issuing entity of the solicitation. Submission via the portal is the preferred method.
Should all company personnel designated as a member in the EWAAC Portal be receiving email communications such as Announcements, Solicitations, Newsletters, etc. or is the email distribution limited to the person designated as the owner?	No this will be limited to the assigned owner/owners. You can designate more than one owner.
If we have a mission partner interested in using EWAAC, how do we help them (who do we point them to, is there a TO RFP or SOW template they use?, etc.)	Please have your potential customers first visit the EWAAC Portal at ewaacportal.com to set up an account and review the portal and trainings. If they have any additional questions, they can send an email to the reach us at either cameron.white.8@us.af.mil (PCO) or hillary.zelinski@us.af.mil (CS).
Can fee structure be provided utilizing EWAAC that we can provide the mission partners for analysis? Can you provide template of timeline utilizing EWAAC?	There are no fees to utilize EWAAC. EWAAC is a rapid use vehicle and specific acquisition timelines are determined by each ordering activity.
Will newly on-ramped companies be able to review previous awards and access documents from previous opportunities? Will it be published which customers use the EWAAC contract vehicle currently and ones that have used it historically?	We do not have that information because it is a decentralized contract vehicle. Any awards going forward will be made by the requiring agency. Previous EWAAC awards can be found on the EWAACportal.com splash page. You can review specific contract numbers to find who have issued which contract.

What is the process for a government agency to provide funding to a contractor that is awarded this EWAAC vehicle, and are there any limitations on the Contract type, FFF, CPFF, etc?	There are no limitations to the contract type. The manner of how funding is provided will be determined at the order level.
Will all opportunities that come out on EWAAC be available for every company to pursue? Or will there be limited distro or sole-source opportunities?	Not all opportunities will be full and open; the acquisition plan is determined by the requiring agency as to if a requirement will be full and open or sole source.
Is there a pipeline that will be shared with contract holders?	This question is unclear and we are unable to provide an answer. If you would like to clarify your question, you can send an email to reach us at either cameron.white.8@us.af.mil (PCO) or hillary.zelinski@us.af.mil (CS).
I understand the list of 122 offerors awarded under On Ramp IV was posted to SAM.gov, but will the government share the full list of contractors on the EWAAC?	The full list of contractors on EWAAC is available through the portal on the splash page under "vendors".
What direction should be provided to potential DAF and DoD end-users that want to acquire capabilities through EWAAC? Is there a process instruction book for the government end-user?	They can visit the EWAAC portal and utilize the toolkit for assistance or reach out to the POCs at either cameron.white.8@us.af.mil (PCO) or hillary.zelinski@us.af.mil (CS).
What is the expected timeline for releasing new Delivery Orders (DO) under the EWAAC IDIQ, and how often can we expect to see new opportunities posted and how do we get notified?	EWAAC is 100% decentralized and the release of opportunities is done as the needs arise at the ordering levels. Therefore, there are no expected "timelines" for release, or a projectable frequency.
What are the procedures for submitting proposals for new DOs, and are there any specific requirements or templates that must be used and what volumes might be required?	EWAAC is 100% decentralized, therefore the instructions and requirements for each submission will be dependent on the individual solicitations.
What are the turn-around times for DO proposals?	This will be determined at the order level as each requirement is different and require different level of review and evaluation.
Can you provide more information on the evaluation criteria used to select awardees for DOs, and how proposals will be scored and ranked?	Evaluation criteria will be determined at the order level and should be expected to differ for each requirement.
What is the DPAS rating for this IDIQ? Will it change based on delivery order?	The IDIQ does not have a DPAS rating at the basic level. DPAS ratings will be assigned at the ordering level.
